

Tomato List 2024

Determinate: “Bush” varieties that reach a certain height and then stop growing, with most fruit borne over a 4–6-week period. Excellent for a concentrated harvest. These plants can grow without support or with short stakes or cages. Perfect for a patio, container, or small gardens.

Indeterminate: Pole or stake varieties that continue to grow and flower throughout the season but have less mature fruits at any one time. Often will continue to grow until frost, with harvest lasting several months. These plants require tall stakes, cages, or trellises.

Abraham Lincoln

- HEIRLOOM/ PASTE. (87 days; Indeterminate) Beautiful dark red fruits, sweet, meaty solid. Fruits are smooth, free from cracks and seams and ripen all the way through. Ideal for ketchup, juice, or slicing. Sturdy plants.

Alice’s Dream

- BEEFSTEAK. (80 days; Indeterminate) A super beautiful beefsteak tomato, bursting with antioxidants and an incredible depth of flavor. This medium/large beefsteak is golden yellow with red striping and a blue blush. We love this productive and anthocyanin rich variety.

Amish Gold

- CHERRY/ CANNING. (80 days; Indeterminate) A cross between Amish Paste and Sungold produces HUGE crops of 1 ½” long oblong-shaped golden tomatoes with a sharply pointed end. A unique and rare tomato with the color and flavor of Sungold and the meatiness of Amish Paste.

Amish Paste

- CANNING. (74 days; Indeterminate) Dates back to the turn of the century and is best for sauces and canning. Deep red fruits about 8 oz. are large for canning types with “real tomato” flavor. Not overly acidic.

Beef Plus

- BEEFSTEAK/ SLICER. (73 days; Indeterminate) Many experts consider this variety as “the best tomato yet developed”. Adapts easily to different environments. Old-fashioned, rich flavor; colossal fruit size and yield. Globe shaped fruits weigh 9-16 oz.
- Tolerant to Verticillium wilt, Fusarium Wilt (Races 1 and 2), Nematodes, Tobacco Mosaic Virus, Alternaria Stem Canker, Stemphylium Gray Leaf Spot

Beefsteak

- BEEFSTEAK/ SLICER. (80 days; Indeterminate) These large, flattened, solid, meaty, juicy, and brilliantly red fruits are slightly ribbed and weigh up to 2 lbs. An excellent slicer, with a rich, sub-acid flavor.

Better Boy

- BEEFSTEAK/ SLICER. (75 days, Indeterminate) A mid-season variety with plump, juicy, deep red tomatoes that weigh more than 1 lb. each. Good producer: fruits are very flavorful, with juicy yet firm flesh. Heavy foliage protects it from sunscald. Thrives in every climate.
- Tolerant to Verticillium wilt, Fusarium Wilt, Nematodes, Alternaria Stem Canker, Stemphylium Gray Leaf Spot

Better Bush

- SPACE SAVING. (68 days; VFN) An early home variety bears all season long. Plant features a strong central stem growing to 48”. Little need for staking. Produces big 4” fruits that are sweet and meaty. Excellent for container gardening.

Big Beef

- BEEFSTEAK/ SLICER. (73 days; Indeterminate) Experts consider this variety as “the best tomato yet developed”. Adapts easily to different environments. Old-fashioned, rich flavor; colossal fruit size and yield. Globe shaped fruits weigh 9-16 oz.
- Tolerant to Verticillium wilt, Fusarium Wilt (Races 1 and 2, Nematodes, Tobacco Mosaic Virus, Alternaria Stem Canker, Stemphylium Gray Leaf Spot

Big Boy

- BEEFSTEAK/ SLICER. (78 days; Indeterminate) Large, crack-free tomato with superb flavor. Bright red, meaty fruits often weigh 1 lb. or more, smooth blemish resistant skin.

Big Mama

- PASTE. (80 days; Indeterminate) Enormous, incredible meaty fruits up to 5 inches long and 3 inches across. Seedless tomatoes save time peeling and coring, easily yielding tasty and thick sauces. Fruit weighs 6 oz.

Big Zac

- BEEFSTEAK/ SLICER. (80 days; Indeterminate) Enormous tomato flavor with fruits from 4-6 pounds! Stunning producers in our garden last year. We looked forward to harvesting this one all summer! Meaty and delicious with good disease resistance.

Biltmore

- BEEFSTEAK/ SLICER/ SPACE SAVING. (70 days; Determinate) Mid-season variety is a breeze to harvest thanks to jointed stems, manageable plant size and uniform ripening. Globe-shaped, smooth, deep red fruits are 8-10 oz. Matures earlier with fully developed flavor.
- Tolerant to Verticillium wilt, Fusarium Wilt (Races 1 and 2), Tobacco Mosaic Virus, Alternaria Stem Canker, Stemphylium Gray Leaf Spot

Black Cherry

- COLOR/ CHERRY. (65 days; Indeterminate) Yields plentiful clusters of perfectly round 1" true cherry tomatoes that a deep red with a blackish hue. The flavor is complex, rich, juicy, and sweet.

Black from Tula

- COLOR. (70-80 days; Indeterminate) Regarded as one of the best-tasting tomatoes. 8-12 oz fruit with a smoky, complex flavor and dark colored flesh. From a Ukrainian heirloom. Adapted and dependable to a wide range of conditions.

Black Krim

- COLOR. (69 days; Indeterminate) A most unusual novelty. Fruits are a dark, deep red (almost shiny black) with heavy green shoulders. The interior is a deep-reddish green color. Sweet and tasty. Matures extremely early.

Black Pineapple

- HEIRLOOM/ COLOR. (80-90 days; Indeterminate) A most exciting new tomato, it is wonderful in every way. This unusual variety was developed by Pascal Moreau, a horticulturist from Belgium. The multi-colored, smooth fruit weighs about 1½ lbs. The flesh is bright green with deep red streaks. Everyone loves its superb flavor that is outstanding, being both sweet and smoky with a hint of citrus. The yield is one of the heaviest we have ever seen! Be the first at your farmers market to have this recent classic.

Black Prince

- COLOR. (70-90 days; Indeterminate) Another Russian Treasure! Small to medium oval fruits are very juicy and are a deep garnet red color. Fruits are 2 inches in diameter, uniform, and blemish free.

Black Strawberry

- COLOR. (60 days; Indeterminate) Fantastic, sugar-sweet tomato flavor, which is fruity, with a hint of grape and plum flavors. The flavor is decadent and indulgent, with perfectly balanced sweet and tart flavor! This variety produces diversity in color, and some plants may produce grape-shaped fruit. One of the best-tasting tomatoes we have tried!

Bloody Butcher

- HEIRLOOM. (55 days; Indeterminate) Sensational multi-purpose, early and high yielding. Strong tomato flavor in medium, round 4 oz. fruits that are deep dark red inside and out. Potato-leaved plants are fast growing.

Blush

- CHERRY (70 days; Indeterminate). Beautiful bright yellow snacking tomato. Red stripes appear as red marbling develops. Sweet fruity flavor. Strong plants tolerate tough conditions. Great in mixes with other artisan tomatoes.

Brandy Boy

- BEEFSTEAK/ SLICER. (75-78 days; Indeterminate) Huge pink beefsteak fruit up to 5 ½ inches across. Fruits ripen evenly with thin skin and heirloom tangy-sweet flavor. Exceedingly high yields on plants with improved disease resistance.

Brandywine

- HEIRLOOM. (90-100 days; Indeterminate) An Amish heirloom that dates to 1885 and is the world's best flavored tomato. Plants look like potato vines with good yields to extra-large (weighing up to 1 ½ pounds) firm clear-skinned, light rosy, pink fruits.

Brandywine Black

- COLOR/ PASTE/ HEIRLOOM. (80- 90 days; Indeterminate) This great-tasting tomato that is extra-large in size and full of the deep, earthy, and sweet flavor that has made blackish-purple tomatoes so popular. Superior for salsa and cooking. We enjoyed these all summer, both fresh and in countless recipes. A magnificent home garden variety that will surely become a favorite.

Brandywine Pink

- HEIRLOOM/ SLICER/ COLOR. (75- 90 days; Indeterminate) This popular beefsteak-sized, Amish tomato produces rosy, pink fruits loaded with an old-fashioned tomato taste that has been prized for decades. It is one of the benchmarks for intense tomato flavor. The indeterminate vines are vigorous, so use tall cages. Vines yield tomatoes that ripen gradually until frost. Plants have "potato leaf" foliage. The tangy taste of Brandywine is a gourmet cook's delight.

Brandywine Yellow

- COLOR. (90-100 days; Indeterminate) Golden-yellow version of Brandywine, with prolific yields of flattened, semi-regular fruits.

Bush Beefsteak

- BEEFSTEAK/ SLICER/ SPACE SAVING. (80 days; Indeterminate) These large, flattened, solid, meaty, juicy, and brilliantly red fruits are slightly ribbed and weigh up to 2 lbs. An excellent slicer, with a rich, sub-acid flavor.

Caspian Pink

- HEIRLOOM. (80 days; Indeterminate) From southern Russia this is a prolific pink beefsteak. One-to-two-pound fruits rival Brandywine in flavor.

Caro Rich

- COLOR. (80 days; Indeterminate) Deep golden orange large beefsteak. 10-12 oz fruit. High beta-carotene (up to ten times as much as most tomatoes) VERY LOW acid for a nice, sweet flavor. Heavy production of 3 ½ “smooth fruits.

Carolina Gold

- COLOR. (71 days; Determinate; VFF) Extra-large fruits are yellow-gold and deeply oblate. Vigorous, medium-tall plants should be staked. Resistant to Gray Wall.

Celebrity

- BEEFSTEAK/ SLICER. (70 days; Semi-indeterminate) AAS award winner. Highly adaptable from Canada to the South. Medium-sized fruits are crack-resistant and average 7 oz.
- Tolerant to Verticillium wilt, Fusarium Wilt (Races 1 and 2), Nematodes, Tobacco Mosaic Virus, Alternaria Stem Canker, Stemphylium Gray Leaf Spot

Chef's Choice Orange Hybrid

- BEEFSTEAK/ SLICER/ COLOR. (75 days; Indeterminate) 2014 AAS Winner! Bred from the popular heirloom "Amana Orange," this hybrid has the wonderful flavor and color of the heirloom but with earlier maturity and improved disease resistance. Beef-steak type. Crack resistant. Average 9-12 oz. Superior taste and texture, perfect for cooking and eating fresh.

Cherokee Carbon

- COLOR. (75-80 days; Indeterminate) Heirloom Marriage Variety. The best of Cherokee Purple and Carbon. Beautiful beefsteaks have a dusky blush and rich, delicious flavor. 10–12-ounce fruit on vigorous plants. Crack resistant.

Cherokee Purple

- COLOR. (80-90 days; Indeterminate) A dependable producer of unusual, medium pink-purple fruits that appear brown in color and average 8-12 oz. Fruits are round to oblate, with no cracking. Exhibits tolerance to mild drought as well as to common diseases.

Christmas Grapes

- GRAPE. (75- 80 days; Indeterminate) An old Heirloom variety that produces masses of 40-50 Gram fruits with an intense old fashion tomato flavor from early in the season all the way through to the first frost.

Delicious

- BEEFSTEAK/ SLICER. (77 days; Indeterminate) An excellent slicer, with most fruits over 1 pound. Hold the world's record of 7+ pounds for a single fruit! Produces smooth and solid fruits that seldom crack, with small cavities, solid meat, and excellent flavor.

Early Doll

- BEEFSTEAK/ SLICER. (55 days; Determinate) Every gardener needs a variety like this one - early and packed with flavor. Produces 4 to 5 oz. bright red, globe shaped fruit that is excellent for fresh use in salsas, salads, or slicing.

Early Girl

- BEEFSTEAK/ SLICER. (57 days; Indeterminate; VFF) Extra-early, tasty, full-sized fruits. Meaty, ripe red fruits are 4-6 oz. slightly flattened and bright red throughout. Firm texture and blemish free skin. Heavy yield on heavy vines.

Fourth of July

- BEEFSTEAK/ SLICER (49 days; Indeterminate) Tasty fruits, big enough for slicing, ripen in early summer. Extra juicy and firm.

Gabrielle

- GRAPE. (60 days; Indeterminate) Small, sweet grape tomato that does not crack. Heavy producer of ½ ounce fruit in clusters. Extremely popular. Good substitution for Juliet Grape.

Gardener's Delight

- GRAPE. (72 days; Indeterminate) German-bred prize-winner. Produces long grape-like red, sweet, ¾ inch fruits in clusters of 6-12. Very crack resistant and bears until frost.

Genuwine

- BEEFSTEAK/ SLICER. (70-75 days; Indeterminate) Heirloom Marriage Hybrid. Slicing type. A cross between Costoluto Genovese and Brandywine. Beautiful, slightly squat, globe shaped fruit with delectable flavor. Ready to harvest two weeks earlier than either Costoluto or Brandywine.

German Gold Strawberry

- HEIRLOOM/ COLOR (80 days; Indeterminate) Organic Seed. An offshoot of the popular German Red Strawberry. The plant produces 14 oz ox-heart shaped, gold-colored tomatoes. Sweet tropical fruit flavors. RARE.

German Johnson Pink

- BEEFSTEAK/ SLICER (76-80 days; Indeterminate) Originally grown in West Virginia, this heirloom was one of the parent lines for the legendary Mortgage Lifter. Pinkish-red skin and seedless meaty, mild flesh, the large lobed fruits weigh up to 1 ½ pounds. A favorite for slicing and canning. Disease resistant vines.

German Red Strawberry

- HEIRLOOM/ COLOR (80 days; Indeterminate) Organic Seed. This German heirloom is perfect for a sandwich tomato. Delicious, uniform fruits resemble strawberries, but are much larger. Averages 10 oz. and 3 ½ inches long Solid meat has few seeds and little juice yet delivers big on taste.

Giant Belgium

- HEIRLOOM/ BEEFSTEAK/ SLICER. (82-90 days; Indeterminate) One of our most popular heirlooms! Huge, sweet fruits average 1-2 pounds and have weighed in at 5 pounds. Deep pink fruits have low-acid, mild flavor. So sweet growers use them to make wine! Solid meat and size mean one slice per sandwich!

Gold Medal

- COLOR. (80-90 days; Indeterminate) Classic bi-colored variety from Ohio tomato collector Ben Quisenberry. One-pound fruits. A repeat winner of many taste tests. One of the finest yellow and red bicolored tomatoes available.

Golden Jubilee

- PASTE/ COLOR. (72 days; Indeterminate) Mild flavor and low acidity make this one of the best varieties for tomato juice. Bright golden-orange 3-inch fruits have meaty, thick walls with few seeds. Medium-sized fruits produce high yields, ideal for the home garden.

Goliath Bush

- SPACE SAVING. (68 days; VFN) Specially developed for patio gardeners and those with limited space. Unsurpassed by any other bush variety. Attractive, compact plants grow to 3 ½ feet. Huge 3-4" red fruits packed with flavorful meat and high sugar content. Bears consistently up to frost. Need little staking.

Green Giant

- COLOR. (85 days; Indeterminate) Potato leaf variety. Very productive and tasty! Large emerald, green fruit is over 1 pound in weight, very uniform and smooth, blemish-free. The color stays pure green even when dead ripe! Very few seeds and outstanding complex flavor. Extremely sweet and juicy.

Green Zebra

- COLOR/ SPACE SAVING. (78 days; Determinate) This is the most unusual variety you will ever grow! Fully ripened fruits are bright green, with stripes of still lighter green. Round, smallish, 2-4 oz. fruits have excellent real tomato flavor. Plants are vigorous. A favorite tomato of high- class chefs, specialty markets and home gardeners.

Health Kick

- SALADETTE/ SPACE SAVING. (72 days; Determinate) A perfect saladette variety. Juicy plum shaped fruits weigh about 4 oz and are strongly disease resistant. Sets loads of fruit on plants that grow to about 4 feet tall.
- Tolerant to Fusarium Wilt (Races 1 and 2), Tobacco Mosaic Virus, Alternaria Stem Canker, Stemphylium Gray Leaf Spot, Tomato Spotted Wilt Virus

Hillbilly

- BEEFSTEAK/ SLICER. (85 days; Indeterminate) This ancient heirloom hails from the hills of West Virginia. A huge, mild flavored, beefsteak type of fruit weighing 1-2 pounds. Orange yellow, streaked and mottled in attractive shades of red and pink.

Homeslice

- SPACE SAVER (63 days; Indeterminate) The perfect slicer tomato for containers and small gardens; growers can be sure of availability of dependable, professional-quality seed. The early, compact, and mounding plants produce bountiful harvests of round fruit with true tomato flavor.

Homestead

- SPACE SAVING/ BEEFSTEAK/ SLICER. (80 days; Indeterminate) Extremely heat tolerant heirloom variety and will set fruit in high-heat and high-humidity. Fruits are large, meaty, and average 8 ounces. Plants have large, dense vines that help protect the fruit from the sun. Fruits are resistant to cracking. Excellent for making sauces, canning, and preserving.

Hungarian Heart

- HEIRLOOM/ CANNING. (85 days; Indeterminate) A huge pink ox-heart type with almost no cracking. A very productive variety and a favorite for fresh eating, canning and sauces.

Husky Cherry Red

- CHERRY/ SPACE SAVING. (85 days; Indeterminate) This super sweet cherry tomato is a best seller because of its flavor, productivity, and good looks. If you like to snack on cherry tomatoes, this is an excellent choice. One of the popular "Husky" series developed especially for home gardens, the plant is stout, dark green and pretty; it is one of the prettiest tomato plants that we grow.

Husky Red

- HEIRLOOM/ SLICER. (70 days; Semi-indeterminate) The unlimited production potential of an indeterminate tomato and the controlled growth of a determinate together in one plant! Season long production! Compact plants are only 4-4 ½ feet with strong thick central stems. Attractive fruit weighs 5-7 oz. Ideal for small spaces, patios, planters, and even larger pots.
- Tolerant to Verticillium wilt, Fusarium Wilt (Races 1 and 2), Alternaria Stem Canker, Stemphylium Gray Leaf Spot

Independence Day

- BEEFSTEAK/ SLICER. (55 days; Indeterminate) Round 2-3" pink fruits have a great tomato flavor which is not always typical of other early varieties. Perfect for salads and slicing.

Indigo Rose

- CHERRY/ COLOR. (75-80 days; Indeterminate) Round 2-3" fruits have true purple coloring occurring on the fruit that is exposed to the sun developing elevated levels of beneficial antioxidants, while the shaded portion turns deep red. Do not pick it too soon! Let the color and flavor fully develop for the best taste. Superbly balanced complex tomato flavor. Heavy yielder. Some resistance to Powdery Mildew.

Italian Roma

- PASTE/ SPACE SAVING. (76 days; Determinate) Bright red, plum shaped, paste type fruits with meaty interiors. Mid-season variety that gets 30-36 inches tall. Perfect for the home garden or containers.

Jetsetter

- BEEFSTEAK/ SLICER. (64 days; Indeterminate) Big, juicy, smooth, uniform, flattened globes with a nicely balanced, sweet, rich taste that mimics that old-fashioned real-tomato flavor. Strong disease package makes it ideal for home gardeners and market growers.

Jetstar

- BEEFSTEAK/ SLICER. (70 days; Indeterminate) Produce big yields of large, clean fruit, quite free of cracks and scars, in the second early season. Globe-shaped fruit with bright, attractive color inside and out have a pleasant flavor. Sturdy, indeterminate tomato vines grow vigorously, producing heavily on stakes or on the ground.

Jubilee Yellow

- COLOR. (72 days; Indeterminate) Mild flavor and low acidity make this one of the best varieties for tomato juice. Bright golden-orange 3-inch fruits have meaty, thick walls with few seeds. Medium-sized fruits produce high yields, ideal for the home garden.

Juliet

- GRAPE. (60 days; Indeterminate; EB, LB) AAS Winner. Great flavor! One of the most disease resistant grape tomatoes. Red, shiny fruits average about 2 oz. Delicious rich tomato flavor. Dean's customer favorite!

Lemon Boy

- COLOR. (72 days; Indeterminate) Plant produces good yields of large 8 oz. bright lemon-yellow tomatoes. Very flavorful. Excellent for salads and gourmet dishes. Disease resistant.

Little Birdy Red Robin

- CHERRY. (55 days; Determinate) Extra sweet, container grown variety; Can be grown indoors as a potted plant; Fruit is round, red and 1 ¼". Compact plant grows to 8-12" tall. Ideal for windowsills, patios, or hanging baskets.

Little Birdy Rosy Finch

- CHERRY. (55 days; Determinate) Delicious and attractive. The fruit is deep rose pink, excellent tasting cherries. High yields. Perfect for hanging baskets, patio pots, and containers. Compact dwarf plants. Well branched.

Little Birdy Yellow Canary

- CHERRY (55 days; Determinate) Brightly colored canary yellow 1" round fruit. Excellent tasting cherries. Perfect for patio pots, hanging baskets and containers. Compact, dwarf, well-branched plants.

Marglobe

- BEEFSTEAK/ SLICER /PASTE / SPACE SAVING. (72 days; Determinate; VFA) Highly adaptable, tasty favorite that produces high yields of globe-shaped fruit on uniform vines. Large fruits are uniform as well, extremely sweet, and thick walled.

Marzinera

- PASTE. (70-75 days; Indeterminate) Heirloom Marriage Hybrid Meaty, 2-3 oz red Roma/paste fruits are great for salsas, canning and cooking. A cross between San Marzano and Cream Sausage. Plants produce heavy yields.

Micro Tom

- CHERRY. (88 days; Determinate) Plant produces good yields of tiny pea size red tomatoes. An ideal house plant for windows and patios. Kids love them! Developed by the University of Florida. Plant Height: 8" tall.

Monster Italian Paste

- PASTE/ HEIRLOOM. (90 days; Indeterminate) Firm and meaty 6" pointed fruits are perfect for sauces and canning. A "monster" size in a Roma tomato!

Mortgage Lifter

- HEIRLOOM. (75-85 days; Indeterminate) Long time favorite with good yields of exceptionally large, smooth, pink-skinned fruits even in droughts. Very meaty fruits with few seeds, very mild, delectable, sweet flavor. Customer favorite!

Mountain Man

- BEEFSTEAK/ SLICER. (70 days; Determinate) Mountain Man is a fresh market tomato ideal for the eastern summer production season. The strong plant type produces extra-large fruit with delicious flavor that keeps customers happily returning.

Mountain Spring

- SPACE SAVING/ BEEFSTEAK/ SLICER. (72 days; VFF) Plant produces good yields of bright red tomatoes that are firm and resistant to blossom end rot. Suitable for small home gardens and containers. Crack and disease resistant.

Mrs. Maxwell's Big Italian

- CANNING. (80 days; Indeterminate) Organic Seed. Heirloom beauty directly from Italy! Vigorous potato leafed vines produce 1-to-2-pound deep pink beefsteak fruits. Incredible flavor! Excellent for using fresh or for canning. Crack resistant.

Opalka

- PASTE. (90 days, Indeterminate) The red fruit reach up to six inches long and are elongated, tapering to blunt or sometimes pointed tips. They are meaty with few seeds, and unlike most common paste tomatoes, Opalka has a good flavor making sauces and pastes even better.

Pantano Romanesco

- HEIRLOOM. (70-80 days; Indeterminate; A) Roman heirloom from Italy. The fruit is large, deep red with a purple tint. Flesh is extraordinarily rich, flavorful, and juicy. Excellent tomato from home gardeners. Exceedingly rare and delicious.

Patio

- SPACE SAVING. (70 days) Delicious 4 oz. fruits. Good for container gardening on porch or patio. Vines are compact yet produce medium sized fruits that are firm and flavorful.

Paul Robeson

- COLOR. (74 days; Indeterminate) A favorite heirloom from Russia that is a black beefsteak tomato with slightly flattened, round, 4" fruit. Very flavorful with luscious, earthy exotic flavors and a good acid/sweet balance.

Pink Girl

- BEEFSTEAK/ SLICER. (76 days; Indeterminate) Heavy producer of pink fruits, averaging 6-8 oz. Extremely crack resistant and low in acid. Rich flavor and superior quality in disease resistant variety. Season-long producer.
- Tolerant to Verticillium wilt, Fusarium Wilt, Tobacco Mosaic Virus, Alternaria Stem Canker, Stemphylium Gray Leaf Spot

Ponderosa Pink

- HEIRLOOM. (80 days; Indeterminate) Extra- large, up to one pound beefsteak fruits. Rosy-pink, almost seedless, with low acidity and meaty flesh.

Ponderosa Red

- HEIRLOOM. (80 days; Indeterminate) This old-time favorite is an extra-large, beefsteak variety with mild flavor. Almost seedless, with low acid, solid meat deep red flesh. Vigorous vines produce heavily.

Red Oxheart

- HEIRLOOM/ PASTE. (80 days; Indeterminate) Plant produces good yields of large 1-pound red heart-shaped tomatoes. Very flavorful and meaty. Great for making tomato sauces.

Red Pear

- GRAPE. (70 days; Indeterminate) One of the rarest of the heirloom varieties still grown today. Hardy, medium-sized plants yield plenty of small red pear-shaped fruits with very few seeds. Perfect for salads, sauces, or pickles.

Red Zebra

- HEIRLOOM. (85 days; Indeterminate) One of the best looking and best tasting of all striped tomatoes. Fruits are dark red inside and brighter fire-engine red outside, with skins streaked by dramatic, golden stripes. Juicy and flavorful, with large crops of 3-inch fruits on strong productive plants.

Riesentraube

- GRAPE. (70 days; Indeterminate) The name translates to “great bunches of grapes”, as many as 350 flowers per plant transforms into bunches of red pear-shaped fruits with pointed ends weighing about ¾ oz. each. Excellent, full-bodied flavor like a beefsteak. Compact vines strongly branched.

Rutgers

- CANNING. (75 days; Determinate) Organic Seed. All-purpose variety ideal for canning. Ripens evenly from the inside out. Bright red fruits with heavy walls average about 7 oz. with full-bodied flavor and disease resistance.
- Tolerant to Verticillium wilt, Fusarium Wilt, Alternaria Stem Canker, Stemphylium Gray Leaf Spot

San Marzano

- CANNING/ SPACE SAVING. (80 days; Indeterminate) Organic Seed Heirloom variety that is a little later than Roma, with superb flavor in slightly rectangular shaped fruits, 3 ½ X 1 ½ inches that are bright red and hang in large clusters. Holds well on the vine and in storage. Extra high solid content is perfect for canning.

Solar Flare

- HEIRLOOM/ BEEFSTEAK/ SLICER. (75 days; Indeterminate) In the Wild Boar Series. Organic Seed. Striking gorgeous red fruits are 6-10 oz beefsteaks with gold stripes. Luscious and meaty with a slightly sweet full tomato flavor. Good Scab resistance.

Soldacki

- HEIRLOOM. (75 days; Indeterminate) Heirloom from Poland. Low acid and intensely sweet flavor. Deep pink fruits are flat in shape weighing about 1 pound. Firm flesh inside thin skins.

Spoon

- (65-70; Indeterminate) days Micro mini fruit, just the size of a tiny pea, and said to be the world's tiniest tomato! A delightful edible ornamental, tiny, fire engine-red fruit. What Spoon lacks in size, it makes up in flavor. This variety packs tons of bold classic red, tangy tomato flavor, which is another reason it is a kid favorite! Spoon tomatoes pop in your mouth when you bite into them; they are a joy to eat and grow.

Striped Roma

- HEIRLOOM/ SPACE SAVER. (75-80 days; Indeterminate) These long Roma tomatoes have orange stripes running down the length of the fruit. Very thick and meaty with a rich flavor.

Stupice

- HEIRLOOM. (50 days; Indeterminate) Pronounced: "stu-peach-ka". Potato leaf heirloom tomato that produces 2-4 inch extremely early red fruit. Great flavor. From a Czech breeder. Abundant yields and vigorous plants.

Sugar Rush

- CHERRY. (50-55 days; Indeterminate) Super sweet, boasting one of the highest Brix ratings for sweetness. Brilliant red fruit grows on long trusses, early maturing, very productive, disease resistant.

Sungold

- CHERRY. (57 days; Indeterminate) A positively luscious, bite-sized golden beauty overflowing with an abundance of fruits- thin-skinned, with a juicy flesh that holds its oh-so-sweet, fresh-from-the-vine flavor. Exceedingly early, and a heavy cropper. Cascading trusses smothered in fruits that remain ripe and ready for picking over lengthy periods of time.

Sunsugar

- CHERRY/ COLOR. (62 days; Indeterminate) The ultimate in cherry tomatoes! Golden yellow beauty with a new level of sugary sweetness. Thin-skinned and crack resistant. Heavy early cropper. Very vigorous vines.

Super Sauce

- PASTE. (70 days; Indeterminate) This tomato lives up to its name! Weighs two pounds and 5 ½ inches long and 5 inches wide. Produces gallons of luscious seedless sauce from a single plant harvest. Also is a wonderful salad tomato- a meaty and tasty burger or sandwich slice. Disease free plant.

Super Fantastic

- BEEFSTEAK. (70 Days; Indeterminate) An improved version of the ever-popular Fantastic, with stronger disease resistance. Heavy yields of sweet, juicy, solid, meaty, smooth fruits weigh an average of 10 oz each.

Super Sioux

- BEEFSTEAK/ SLICER. (70 days; Semi-indeterminate) An excellent variety for sizzling summer temperatures. Sets fruit well despite heat and dry conditions. Thick-walled, crack-free, red fruit with an acidic flavor.

Super Sweet 100

- CHERRY. (65 days; Indeterminate; VF) Produces long strands of 100 or more super sweet cherry tomatoes. Extra-high in Vitamin C. Plants bear fruit throughout the summer. Requires staking or caging. Customer favorite!

Supersonic

- BEEFSTEAK/ SLICER. (79 days; Indeterminate; VF) Heavy yields of flavorful and meaty, red 8-12 oz. fruit that are crack resistant. Excellent for salads, sandwiches, and canning.

Sweet Million

- CHERRY. (75 days; Indeterminate) Plant produces heavy yields of 1" red cherry tomatoes. Extremely sweet and flavorful. One plant can produce over 500 cherry tomatoes. Crack resistant. Excellent for salads and snacks.
- Tolerant to Verticillium wilt, Fusarium Wilt (Races 1 and 2), Nematodes, Tobacco Mosaic Virus, Stemphylium Gray Leaf Spot

Sweet Valentine

- CHERRY. (55 days; Indeterminate) AAS 2018 Winner. Juicy 1 ½" long X ¾" wide fruit with rich, complex flavor. Firm, meaty, and easy to harvest. High yields.

Sweetheart Cherry

- CHERRY. (75-90 days; Indeterminate) Sugar-sweet, crunchy, and so delicious! It is packed with sweetness and a rich, berry-like flavor. It is quite crisp, and the fruit can keep long on the vine, making it extra high in sugar! Sweetheart Cherry is a wildly productive little snacking tomato great for greenhouse and outdoor production.

Tomatillo Green Husk

- COLOR. (70 days; Determinate) This unusual 2-inch fruit is harvested green; the husk is removed before cooking. A staple ingredient in Mexican Salsa Verde. Tart, yellow-green fruits can also be used to add a distinctive taste to salads.

Tomatillo Pineapple

- COLOR. (75 days; Indeterminate) Small, round tomato-like fruits ripen from green to yellow with a pleasant texture and an explosive, juicy pineapple flavor. Tomatillo Pineapple is excellent for fresh salads, salsas, desserts, jams, canning and more.

Tomatillo Purple

- COLOR. (68 days; Indeterminate) A rare heirloom variety. Small oval 1 oz fruits ripen from green to purple. Sweeter than green tomatillos yet tart and can be eaten straight from the vine. Skins are noticeably less sticky than most tomatillos. Easy to grow. Great on the grill!

Tomatoberry Garden

- SALADETTE. (60 days; Indeterminate) Unique strawberry shaped fruits. Heart like appearance with meaty texture. Excellent sweet flavor. Fruit Logistica 3rd Place Innovation Award for 2008.

Tropical Sunset Hybrid

- (75-80; Indeterminate) A bright bi-colored variety with the perfect balance of sweetness and acidity. Golden with orange pink stripes. A cherry sized heirloom. Fruit will stay in the ripe stage for a long time, providing a good shelf life.

Tumbling Tom

- CHERRY/ SPACE SAVER. (70 days; Indeterminate) This magnificent variety cascades to 20" or more, making it ideal for hanging baskets and container gardens. Sturdy, evenly branched plants loaded with juicy, 1-2" fruits, perfectly sized for snacking and salads. A true ornament that may seem too pretty to pick but one sweet bite will have you coming back for more.

Viva Italia

- PASTE/ SPACE SAVING. (72 days; Determinate) The very first hybrid pastes with more disease resistance. Very adaptable, with a classic blocky pear shape. High yielder.
- Tolerant to Verticillium wilt, Fusarium Wilt (Races 1 and 2), Nematodes, Alternaria Stem Canker, Stemphylium Gray Leaf Spot

White Cherry

- CHERRY. (75-85 days; Indeterminate) Organic Seed. Uncommonly delicious white cherry tomato with sweet fruity pineapple flavor. Rare, exquisite variety. 1-2 oz. fruit on compact indeterminate vines.

Yellow Pear

- GRAPE/ COLOR. (78 days; Indeterminate) Vigorous vines produce high yields of 2 inch yellow-skinned pear-shaped fruits with few seeds. Dependable performance.
